

## Logitech® Premium USB Headset 300

Digital audio • In-line controls • Noise-canceling microphone • Stereo • USB

Step up to Logitech's premium headset and add an extra dimension of comfort and convenience to your voice and video chat, games, music and more. Enjoy immersive sound, a comfortable fit and the convenience of the in-line remote control.

It's our most comfortable, most versatile, best-sounding PC headset... featuring everything you need to get more from your computer: plush ear pads, deluxe stereo sound, a noise-cancelling microphone and in-line volume/mute control. Just plug it in to the USB port and it's ready to work!

- Inline volume and mute control with soft-touch surface for fingertip convenience
- Dynamic stereo sound lets you immerse yourself in games and music
- Premium adjustable headband is engineered for superior comfort with the flexibility of right or left microphone placement
- Noise-cancelling microphone filters out unwanted background noise
- Plush ear pads cushion your ears for hours of continuous enjoyment
- Ideal for voice and video chat, music, gaming and speech recognition applications
- Advanced digital audio provides superior clarity with the simplicity of a single USB plug-and-play connection
