

D-Link®

PC on TV™

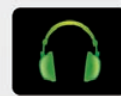

TV Shows

Movies

Photos

Music

Internet Videos

WHAT THIS PRODUCT DOES

The D-Link® PC-on-TV Media Player lets you use your television to watch movies, view photos, and listen to music that are playing on your desktop or notebook computer². Relax from the comfort of your couch as you play your favorite media on your big screen TV.

Navigate your Windows® OS desktop from your TV with the included remote.

IF IT'S ON YOUR PC, IT'S ON YOUR TV²

WHAT YOU CAN WATCH

Watch movies, TV shows or share photos with friends and family on your big screen TV. You can even watch Internet videos from your favorite web sites¹.

FORGET ABOUT FILE FORMATS

Today, there are numerous music and movie file formats so it can be a bit overwhelming. Many popular media players only allow for certain file formats to be played on their device. The PC-on-TV takes care of this problem by simply streaming the file playing on your PC to your big screen TV².

MULTIPLE WAYS TO CONNECT

With multiple video outputs to choose from, the PC-on-TV can connect to almost any TV. Whether you have a TV with RCA (composite) inputs, or a brand new LCD TV with VGA or component inputs, the PC-on-TV can connect to it.

WIRED OR WIRELESS

The PC-on-TV allows you to connect to a network-enabled computer located in a different part of the house. Connect to your notebook that is in your bedroom or the desktop computer sitting in the office. Control your PC from your TV using the included remote and play movies or launch applications like you would with a mouse.

MOUSE AROUND WITH THE REMOTE

This isn't your everyday remote control. Navigate around your screen with the trackball and get exactly where you want to go on your PC like you would with your mouse. Along with the trackball we've included left and right click buttons so you can access files and folders like you would when sitting in front of your PC.

The D-Link PC-on-TV brings your favorite music, photo, and video files from your PC to the comfort of your living room. Watch TV shows and sporting events from your favorite Websites on the big screen. Experience your media and Internet video like never before.

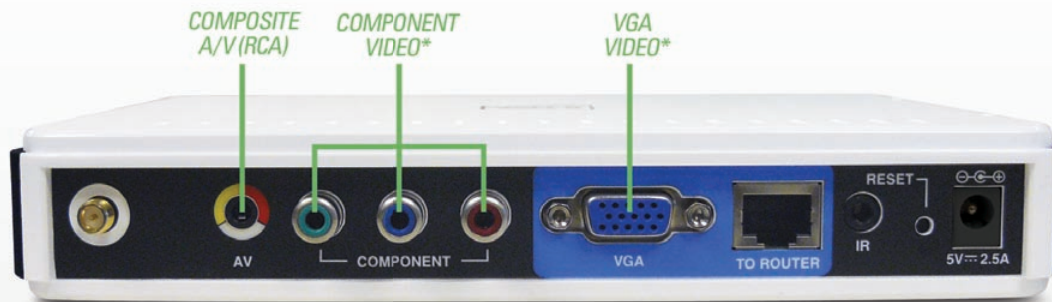

Watch videos from your PC in the comfort of your living room.
