 12.5" (W) x 11.4" (D) x 8.3" (H)
 Clam Shell Dimensions:
 8.3" (W) x 3.8" (D) x 12.5" (H)
 Master Carton Weight: 36 lbs.
 Inner Carton Weight: 4 lbs.
 Clam Shell Weight: 1.1 lbs.

The superb-sounding Altec Lansing AHP712 headphones with Active Noise Reduction are ideal for the frequent traveler and anyone in a noisy environment. Active Noise Reduction technology uses small microphones to "listen" to ambient sounds and special circuitry to create a sound wave 180 degrees out of phase from the ambient sounds. When the sound wave is played through the headphones, it reduces ambient noises, such as airplane engines and subway rumbles, to allow you to focus on your music, movies or games.

- Wide-spectrum Active Noise Reduction and closed ear-cup design promote pleasant travel by virtually eliminating unwanted noise.
- High Performance 40mm neodymium drivers deliver superior quality audio reproduction.
- Adjustable deluxe padded headband and leatherette ear pads for long lasting comfort.
- Features foldable design for easy packing, handy multi-function controller, carry bag with accessory pouch, two choices of cable lengths, as well as airline and 0.25" adapters.
